Dear Parent/Guardian:

We are pleased that your son or daughter has applied to the Einstein Healthcare Network’s Discover Healthcare I summer program. This program will give your child an opportunity to explore his or her career interests and learn about a wide-range of healthcare career opportunities. Students will meet and observe healthcare professionals in action in their work settings, including: nurses, radiology technologists, respiratory therapists, physicians, physical therapists, laboratory technologists and more.

The program is held at Einstein’s Medical Center- Philadelphia campus at Old York and Tabor Roads. During the three weeks of the program, students will meet from 9 am to 1:30 pm. The students will spend several days exploring their career interests and aptitudes and will leave the program with a career plan, resume, and interview skills.

If your child is admitted into the program, he or she will be required to get (free of charge) a health screening at Einstein’s Live Well employee health program. If your child is less than 18 years of age, a parent or legal guardian will be required to accompany them to Live Well. We will send your child all the forms they will need and will guide them through the process.

If you have any questions, please call Ellen F. Goldberg, at 215-456-6059 or email: goldberge@einstein.edu. We ask that you sign the statement of consent below and return it with your child’s application to the program.

_____________________________________________________________
I hereby give my teenager permission to participate in Einstein Healthcare Network’s three-week, Discover Healthcare I: Career Exploration Summer Program.
